

Join us for a

Rain Barrel Workshop

For homeowners and gardeners in and around
Rockport, TX

Build your own rain barrel and investigate
best yard care practices for maintaining a
healthy bay ecosystem.

Rain barrels limited to the first 30 registered!

Register
in person or by mail at the
Texas A&M AgriLife
Extension Office
(address below)

Why should I attend?

Through attending this workshop, participants will be able to:

- Investigate how to maintain a healthy bay and watershed with **actions we can take** in our own yards.
- Determine how grass clippings can influence the **health of your bay**.
- **Construct a rain barrel** and take it home to begin harvesting rain water.
- Identify water saving strategies that are **easily implemented at home**.

Register now to secure your spot!

When?

February 10, 2016
8:30am – 12:00pm
